Dear New Member,

Welcome to ForwardFit!

We are excited to bring the power of the ForwardFit training system to the Highland Landmark office building and its tenants. We realize that you have other choices when it comes to fitness and we would like to thank you for taking a look at ForwardFit. We believe we have the best club around, meaning our culture and our results. Our culture is based on motivated people that encourage, inspire and love to help others reach their goals where they might have struggled in the past. At the end of the day results matter and that is what we focus on.

When our members come to our gym they say it is the best part of their day. We don't discourage, we motivate and we change lives. It doesn't matter your fitness level, the members all workout together just at different degrees of intensity and we will modify anything to meet your needs.

A great benefit to our program is that we are bringing the same exciting and effective training without you having to leave the office building. There are no gym membership fees, only the cost of the classes.

Talk is cheap though, and every owner will tell you that they are proud of the gym they own.

We understand that making a decision to commit to working out is difficult. Will I like the other members? Will the staff appreciate my business after I join? Are there things I don't see that later make me wish I didn't buy here? That is why we are not tying you into any long term contracts. You will be billed monthly and can cancel at any time.

During our initial kickoff we will start with four days of training during the lunch hour (noon). Attached to the back of this welcome kit is a survey. We ask that you tell us what you are excited about or what you would like to see added to our training program. If we get enough requests for a class, day or time, we will add and continue to grow without changing your price as long as you're a current member.

Getting you the best results is our main focus by delivering quality training and a great experience.

We look forward to being a part of your fitness journey.

Sincerely,

Bill Waltzek – President and Owner

Testimonials

Brittney Sacco

Just under a year ago, I began training at Forward Fit. At the time I was also participating in a Barre/Pilates class, and going to a big box gym to do a lot of cardio. I was losing weight but to a certain point and my body would just plateau. After just a few classes at Forward Fit I learned correct form, weight training, HIIT Cardio, and many other ways to exercise that I would never have known to try on my own. I quit my other exercise routines and became hooked to the environment and the challenges that Forward Fit offered. Very quickly I noticed a change in my body; I lost 30 pounds and 6% body fat in 6 months and added 8 pounds of muscle to my physique. Even after nearly a year of membership, my muscle tone gets better with each workout and overall my body does not plateau as it did with other training. That is one of the things I love about this gym- the workouts are never the same and your muscles are always evolving giving you the best results. Aside from the phenomenal physical results, Forward Fit has helped me learn a lot about nutrition and how to properly fuel my body; driving my health forward at an accelerated rate and because of which I have now become addicted to health and wellness education. And above all, one of the most valuable attributes Forward Fit has to offer is it's people. We have members of all different ages, weights, and athletic ability and Bill really shows us all that he wants all of us to succeed and will personalize a workout to fit each unique individual's needs. Everyone works together and pushes each other; truly caring about not only each other's results but the people themselves. Forward Fit's member really act as one giant family, and that sincere support is something I have never found at another gym.

I get complimented on my body a lot and many people also ask me what else I do - what other training I do on the side other than Forward Fit that help me look the way that I do... I always tell them it is only Forward Fit. This is the only gym I go to and the only training I do, with everything there helping ensure your success, there is no reason I would ever look anywhere else.
